

## REDAS Members' Session 8 February 2024 (Thursday); 11am – 2pm

### Dear REDAS Members

As we move into 2024, continued efforts will be made to ramp up REDAS events & activities to facilitate connectivity and business opportunities for members. Events like the members' sessions enjoy strong support and we are pleased to inform you that a session will be held on **Thursday, 8 February 2024** at Lounge 1883, Singapore Recreation Club, B Connaught Drive, Singapore 179682.

The session will start with the following Presentations at 11am followed by lunch at 12.30pm.

1. **“Singapore’s 3D Mapping Initiative”**

Speaker – **Ms Sandy Teo, Senior Geomatics Manager from the Survey & Geomatics Department at Singapore Land Authority (SLA)**

National 3D Mapping aims to map the entire nation with rapid data capturing technologies to create an accurate, reliable and consistent national 3D map. When city planning scenarios are translated into a 3D ‘real world’ scenario, we can design, build and develop with clarity and precision. At this session, SLA will provide more insights on how users can utilise the new 3D models in their operation, planning, resource management and policy formulation, and collaboration with research institute to identify buildings with solar energy potential.

2. **“Outlook for the Singapore Grade A CBD Office Market in 2024 – From A Tenant’s Representative Perspective.”**

Speaker - **Mr Alan Cheong, Executive Director, Research & Consultancy, Savills**

After a year of relative quiescence in 2023, the supply of new office developments is expected to resume in a significant way in 2024. Against the backdrop of increasing supply, economic conditions have yet to improve and interest rates expected to remain high for much of the year, the behaviour of tenants in such an environment would be key to determining how office rents may traject in the CBD this year. This presentation will look at the common grounds that most large space tenants have and what industries are performing well in the current economic climate. Arising from this, speaker will weave together the rental outlook for the Grade A CBD office space for the year.
