

REDAS Members' Session (Physical) on 24 June 2022 (Friday); 11am – 2pm

Dear REDAS Members,

We are pleased to inform you that the next REDAS Members Session will be held on **24 June 2022 (Friday)** at Lounge 1883, Singapore Recreation Club, B Connaught Drive. The session will start with the following presentations at 11am, followed by a light lunch at 12.30pm.

1. **“ OneMap and SLA’s Geospatial Tools ”**

The Singapore Land Authority (SLA) has developed geospatial products including the national map of Singapore, OneMap and its 3D version to benefit more users, adding value to the real estate sector at different development stages. With OneMap, developers can provide information like distance from residence to schools for their prospective buyers. They can also showcase the views at different building vantage points of their projects, that is, buyers will be able to “preview” the views from different floors. **SLA team** will share more information at the session.

2. **“ Cleaning Robots for Buildings ”**

With increasing number of multi-storey buildings with glass facades, the process of cleaning them have remained more or less the same, that is, they are labor intensive and often dangerous, especially in adverse weather and wind conditions. The **team at Singapore University of Technology & Design (SUTD)** will share their new class of nested reconfigurable glass facade cleaning robots, to overcome challenges that are associated with mechanism design, safety, autonomous capabilities, and human robot interaction.

3. **“Outlook on the Residential and Commercial Markets ”**

While Singapore has braved through the pandemic, caution remains over the outlook for the residential and commercial markets on the back of global macroeconomic and socio-political threats. As **Mr Desmond Sim**, CEO of Edmund Tie SEA Pte Ltd shares his views on the outlook at the session, he will also explore into the leaders and laggards for the markets in these challenging times.
