Date: 30 Apr 2026

## **CIRCULAR TO PROFESSIONAL INSTITUTIONS**

### **Who should know**

Building owners, Developers, Architects, Engineers, Transport/ Traffic Consultants and Builders

## **LAUNCH OF ASKDBC – LTA'S AI-POWERED CHATBOT FOR DEVELOPMENT & BUILDING CONTROL QUERIES**

1. In our continued effort to enhance industry support, LTA launches AskDBC, an AI-powered chatbot designed to streamline how industry professionals access LTA's regulatory information. The tool enables quicker information retrieval and reduces reliance on email enquiries for general submission queries.
2. AskDBC has been trained with LTA's Codes of Practice and regulations covering vehicle parking, street works, and railway & road structure protection and safety zone requirements to provide accurate guidance on development and building control matters. The chatbot is available through LTA's website at <https://askdbc.lta.gov.sg/> or you may scan the QR code below:

<https://go.gov.sg/askdbc>

3. We encourage all industry professionals to explore AskDBC and integrate it into your workflow for quick reference on LTA requirements. As we continue to enhance this service, we welcome your feedback directly at the AskDBC interface.
4. We would appreciate it if you could convey the contents of this circular to relevant members of your respective organisations.
